

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW HEALTH INFORMATION MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

1. OUR PLEDGE REGARDING HEALTH INFORMATION:

We understand that health information about you and your health care is personal. We are committed to protecting health information about you. Each provider creates a record of the care and services you receive. Providers need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by this mental health care practice. This notice will tell you about the ways in which a provider may use and disclose health information about you. We also describe your rights to the health information a provider keeps about you, and describe certain obligations a provider has regarding the use and disclosure of your health information.

Every provider is required by law to:

- Make sure that protected health information (“PHI”) that identifies you is kept private.
- Give you this notice of our legal duties and privacy practices with respect to health information.
- Follow the terms of the notice that is currently in effect.
- Providers can change the terms of this Notice, and such changes will apply to all information on record about you. The new Notice will be available upon request, in the office, and online at playtherapyomaha.com

II. HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION ABOUT YOU:

The following categories describe different ways that a provider uses and discloses health information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

For Treatment Payment, or Health Care Operations: Federal privacy rules (regulations) allow health care providers who have direct treatment relationship with the patient/client to use or disclose the patient/client’s personal health information without the patient’s written authorization, to carry out the health care provider’s own treatment, payment or health care operations. A provider may also disclose your protected health information for the treatment activities of any health care provider. This too can be done without your written authorization. For example, if a provider were to consult with another licensed health care provider about your condition, we would be permitted to use and

disclose your person health information, which is otherwise confidential, in order to assist the clinician in diagnosis and treatment of your mental health condition. Disclosures for treatment purposes are not limited to the minimum necessary standard. Because therapists and other health care providers need access to the full record and/or full and complete information in order to provide quality care. The word “treatment” includes, among other things, the coordination and management of health care providers with a third party, consultations between health care providers and referrals of a patient for health care from one health care provider to another.

Lawsuits and Disputes: If you are involved in a lawsuit, a provider may disclose health information in response to a court or administrative order. Providers may also disclose health information about your child in response to a subpoena, discovery request, or other lawful process by someone else involved in the dispute, but only if efforts have been made to tell you about the request or to obtain an order protecting the information requested.

III. CERTAIN USES AND DISCLOSURES REQUIRE YOUR AUTHORIZATION:

1. Psychotherapy Notes. Providers do keep “psychotherapy notes” as that term is defined in 45 CFR § 164.501, and any use or disclosure of such notes requires your Authorization unless the use or disclosure is:

 - b. For provider's use in training or supervising mental health practitioners to help them improve their skills in group, joint, family, or individual counseling or therapy.
 - c. For provider's use in defending myself in legal proceedings instituted by you.
 - d. For use by the Secretary of Health and Human Services to investigate my compliance with HIPAA.
 - e. Required by law and the use or disclosure is limited to the requirements of such law.
 - f. Required by law for certain health oversight activities pertaining to the originator of the psychotherapy notes.
